

Motahare Talebi

Aerospace Engineering Student

Email: motahare.talebi24@gmail.com | Phone: +98 9926411154 | Location: Isfahan

Summary

Aerospace engineering student with hands-on CATIA V5 modeling and macro development experience, aviation technical documentation work, and programming skills in MATLAB and Python. Bilingual in English and Persian.

Skills

- CAD / CATIA V5: Part Design (Shaft, Multi-sections Solid, Boolean operations), Assembly Design, Generative Shape Design, Sheet Metal, Drafting with GD&T
- CATIA macro development:
- Programming: MATLAB, Python
- Technical documentation: Component Maintenance Manuals (CMM), bilingual English/Persian flowcharts, Mermaid diagrams
- Languages: English

Experience

CATIA-Focused Internship

- Applying CATIA V5 modeling workflows in an internship setting

Aviation Technical Documentation

- Processed Component Maintenance Manuals, including CMM 25-11-31 Rev 20 for a STELIA Aerospace pilot/copilot seat assembly
- Produced bilingual English/Persian interactive HTML flowcharts and Mermaid diagrams for disassembly and assembly procedures
- Converted MIL-DTL-8815E hydraulic filter specifications into Persian-language industrial procedure documents
- Researched aviation filter part numbers and studied filtration mechanisms, ISO standards, and beta ratios

Projects

CATIA Faucet Model

- Modeled a faucet using Shaft, Multi-sections Solid, and Boolean operations

Cabin Air Filter

- Developed and debugged a CATIA for a cabin air filter model

Education

Aerospace Engineering

- Undergraduate studies in aerospace engineering
